

Communications

To develop communication channels within the Parish, a Parish website was established in 2009 but as legislation changed regarding information that the Parish Council needs to publish a new Parish Council website was created in May 2016 which not only details the Council's minutes and financial information but also current planning applications and details of events happening in the parish.

Clive Hall

To improve the facilities and increase utilisation of Clive Hall a comprehensive refurbishment programme has been successfully completed which modernised and updated the kitchen and disabled facilities. The Village Hall Committee, including new younger members, are actively working to promote this multipurpose parish asset and plan fundraising events to fund future improvements.

Community Activities

The Annual Flower and Produce Show, which incorporates the parish picnic, still proves to be very popular. Going forward, the Parish Council have acquired a lease on the land previously run by the Sports and Social Group with the intention of promoting children and youth facilities in the Village including refurbishing the tennis courts.

Roads and Pathways

The Parish Council's successful negotiation with Shropshire Highways to have the road from Moreton Say Church to Moreton Wood crossroads resurfaced will shortly be completed. On part of the land that it has leased from the Diocese the Parish Council intends to extend the car park by the Millennium Pool which will help alleviate some of the parking issues around the village and school.

Security and Policing

A Neighbourhood Watch Scheme was initiated which has subsequently become a Facebook page (details overleaf) which allows residents to share any concerns they have regarding security, petty vandalism or theft with the rest of the Parish. The Parish Council continue to raise matters of concern with the Local Community Policing Team and there is a Police Complaints Box on the Village Hall.
